

UČNI NAČRT PREDMETA / COURSE SYLLABUS						
Predmet:		Pedagoška praksa 1				
Course title:		Teaching work experience 1				
Študijski program in stopnja Study programme and level		Študijska smer Study field		Letnik Academic year		Semester Semester
Enoviti magistrski študijski program Pedagoška matematika		ni smeri		3		drugi
Integrated Master's study programme Pedagogical Mathematics		none		3		second
Vrsta predmeta / Course type				obvezni		
Univerzitetna koda predmeta / University course code:				M0593		
Predavanja Lectures	Seminar Seminar	Vaje Tutorial	Klinične vaje work	Druge oblike študija	Samost. delo Individ. work	ECTS
	30			15	135	6
Nosilec predmeta / Lecturer:		Damjan Kobal				
Jeziki / Languages:		Predavanja / Lectures:		slovenski/Slovene		
		Vaje / Tutorial:		slovenski/Slovene		
Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:				Prerequisites:		
Vsebina:				Content (Syllabus outline):		

<p>Študent pridobi praktične izkušnje v okviru hospitacij in nastopov. Po dogovoru učitelji matematike kot mentorji spremljajo in vodijo delo študenta, ki se najprej preko hospitacij seznanja z delom v razredu, potem pa tudi sam opravlja nastope. Delo je koordinirano in poteka v stalnem sodelovanju med učiteljem na fakulteti in učiteljem mentorjem na srednji šoli. Izkušnje s hospitacij se diskutirajo in analizirajo. V okviru predmeta študent prisostvuje vsaj petnajstim uram pouka matematike. Od tega ima tudi že dva nastopa. Hospitacije in nastope opravlja po dogovoru v okviru gimnazijskih programov. Nekaj ur hospitacij opravi tudi na osnovnih šolah.</p> <p>Študent lahko v dogovoru z izvajalcem predmeta obveznosti delno ali v celoti opravi tudi z drugimi oblikami praktičnega pedagoškega dela.</p>	<p>Students acquire field experiences with classroom observation and instruction. Mathematics teacher guides a student to gain real classroom experiences. Students observe classroom teaching and under teacher's observation also teach themselves. Teaching is discussed and analysed. In field practice is carefully designed in collaboration with high school teacher advisor and university teacher. Student participates within at least fifteen school hours and teaches at least two hours. Student mainly visits high school classes, but also elementary school.</p> <p>In agreement with the course teacher, a student can partially or fully fulfil course obligations also by other specific practical pedagogical work.</p>

Cilji in kompetence:

Pedagoška praksa v šoli je obvezni sestavni del pedagoškega usposabljanja. Organizira in izvaja se po načelu reflektivne prakse in študentom omogoča integracijo predmetno-vsebinskega in pedagoško-profesionalnega znanja s postopnim vpeljevanjem v poučevanje in poklic

Objectives and competences:

In field experiences are an obligatory part of pedagogical training. It is organized to be as reflective and creative as possible. It designed to promote a successful interaction between content and didactical principles of teaching. Prospective teachers learn about the problems

učitelja.
 Slušatelji se ob praktičnem delu v razredu spoznajo s problematiko sodobnega poučevanja in različnih oblik dela pri pouku matematike.

of modern mathematics teaching.

Predvideni študijski rezultati:

Poznavanje in razumevanje zapletenih odnosov praktičnega matematičnega poučevanja. Uporaba praktičnih izkušenj pri oblikovanju učiteljskih nazorov.

Intended learning outcomes:

Students acquire the ability to understand and handle the complexity of modern teaching of mathematics. Practical experiences are ingrained into their teaching principles.

Metode poučevanja in učenja:

Hospitacije, nastopi, diskusije, konzultacije

Learning and teaching methods:

Classroom observation, instruction, discussions, consultations

Načini ocenjevanja:

Hospitacije, nastopi, poročilo
 Zahtevana ustrezna sposobnost (strokovne) komunikacije v slovenskem jeziku.

 ocene: opravil / ni opravil

Delež (v %) /
 Weight (in %)

100%

Assessment:

Classroom observation, instruction, report
 Adequate ability of professional communication in Slovenian is required.

 Grading: pass/fail
