

UČNI NAČRT PREDMETA / COURSE SYLLABUS						
Predmet:		Pedagoška praksa 2				
Course title:		Teaching work experience 2				
Študijski program in stopnja Study programme and level		Študijska smer Study field		Letnik Academic year	Semester Semester	
Enoviti magistrski študijski program Pedagoška matematika		ni smeri		4	prvi in drugi	
Integrated Master's study programme Pedagogical Mathematics		none		4	first and second	
Vrsta predmeta / Course type				obvezni		
Univerzitetna koda predmeta / University course code:				M0592		
Predavanja Lectures	Seminar Seminar	Vaje Tutorial	Klinične vaje work	Druge oblike študija	Samost. delo Individ. work	ECTS
	30			40	110	6
Nosilec predmeta / Lecturer:		Damjan Kobal				
Jeziki / Languages:	Predavanja / Lectures:	slovenski/Slovene				
	Vaje / Tutorial:	slovenski/Slovene				
Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:				Prerequisites:		
Vsebina:				Content (Syllabus outline):		

<p>Študent pridobi praktične izkušnje v okviru hospitacij in nastopov. Po dogovoru učiteljji matematike kot mentorji spremljajo in vodijo delo študenta, ki se najprej preko hospitacij seznanja z delom v razredu, potem pa tudi sam opravlja nastope. Delo je koordinirano in poteka v stalnem sodelovanju med učiteljem na fakulteti in učiteljem mentorjem na srednji šoli. Izkušnje s hospitacij se diskutirajo in analizirajo. V okviru predmeta študent prisostvuje vsaj štiridesetim uram pouka matematike in ima pri tem deset nastopov. Hospitacije in nastope opravlja po dogovoru pretežno v okviru gimnazijskih programov, pa tudi na drugih srednješolskih programih in na osnovnih šolah.</p> <p>Študent lahko v dogovoru z izvajalcem predmeta obveznosti delno opravi tudi z drugimi oblikami praktičnega pedagoškega dela.</p>	<p>Students acquire field experiences with classroom observation and instruction. Mathematics teacher guides a student to gain real classroom experiences. Students observe classroom teaching and under teacher's observation also teach themselves. Teaching is discussed and analysed. In field practice is carefully designed in collaboration with high school teacher advisor and university teacher. Student participates within at least forty school hours and within that teaches at least ten hours. Student mainly visits high school classes, but also elementary school.</p> <p>In agreement with the course teacher, a student can partially fulfil course obligations also by other specific practical pedagogical work.</p>

Cilji in kompetence:

Objectives and competences:

Pedagoška praksa v šoli je obvezni sestavni del pedagoškega usposabljanja. Organizira in izvaja se po načelu reflektivne prakse in študentom omogoča integracijo predmetno-vsebinskega in pedagoško-profesionalnega znanja s postopnim vpeljevanjem v poučevanje in poklic učitelja.

Slušatelji se ob praktičnem delu v razredu spoznajo s problematiko sodobnega poučevanja in različnih oblik dela pri pouku matematike.

In field experiences are an obligatory part of pedagogical training. It is organized to be as reflective and creative as possible. It is designed to promote a successful interaction between content and didactical principles of teaching. Prospective teachers learn about the problems of modern mathematics teaching.

Predvideni študijski rezultati:

Poznavanje in razumevanje zapletenih odnosov praktičnega matematičnega poučevanja. Uporaba praktičnih izkušenj pri oblikovanju učiteljskih nazorov.

Intended learning outcomes:

Students acquire the ability to understand and handle the complexity of modern teaching of mathematics. Practical experiences are ingrained into their teaching principles.

Metode poučevanja in učenja:

Hospitacije, nastopi, diskusije, konzultacije

Learning and teaching methods:

Classroom observation, instruction, discussions, consultations

Delež (v %) /

Načini ocenjevanja:

Weight (in %)

Assessment:

<p>Hospitacije, nastopi, poročilo Zahtevana ustrezna sposobnost (strokovne) komunikacije v slovenskem jeziku.</p> <p>ocene: opravil / ni opravil</p>	<p>100%</p>	<p>Classroom bservation, instruction, report Adequate ability of professional communication in Slovenian is required.</p> <p>Grading: pass/fail</p>
